Executive Report – Vice President, Fredericton - Fady Botros

Oct 15th, 2019

Dear Members,

Since October 2017, and being re-elected again in November 2018, I have been serving in the position of Vice President Fredericton of the PSAC Local 60550 at the University of New Brunswick. It was a really exciting experience for me during which I have learned a lot and got the chance to get deeply involved with the members of our union.

Throughout my term, I've been working closely with fellow Executive Officers with one main goal of better serving our membership. For instance, we had our regular Executive Committee meetings during which we put together different strategies for member engagement, investigated several challenging grievances, discussed financial budget reports, and drafted several bylaw changes to reflect the inclusion of post-doctoral in our union.

As part of my duties, I have been maintaining and updating our website and social media pages keeping our members informed about the latest union activities and events. I have also been actively involved during the orientation week activities which was a really great opportunity to reach out to new and existing members. Additionally, I have been serving as the steward for the Electrical and Computer Engineering department at UNB.

I would like to thank each and every one of the previous and existing executive team members for their hard work. It was an honor working with you spreading out the word about our union, enforcing our collective agreement and protecting the rights and responsibilities it entails to all of our members.

In solidarity,
Fady Botros
